Creates an exception for an individual who sells synthetic urine for bona fide educational, medical, or scientific purposes. Assumptions:

- It is currently a Class A misdemeanor offense for an individual to intentionally use, or possess with the intent to use, any substance or device designed to falsify the results of a drug test.
- A small increase in cases in the court system, which will result in additional local government expenditures for processing the cases and additional local government revenue from fees, taxes and costs collected. These expenditures and revenue are estimated to be not significant.
